

OUR ENVIRONMENTAL PURCHASING POLICY

Our hotel's main goal is to provide the best quality service with the support of all our collaborators. In line with this goal, all purchased products are evaluated and purchased within the scope specified below.

- Importance is given to the recycling of packaging materials in food and beverage purchases.
- We evaluate the social and environmental risks of the goods we consume the most by cooperating with our suppliers, and we also consider social and environmental criteria in our purchasing decision process.
- In purchases, priority is given to suppliers with ISO 14001 Environmental Management System certificate or an environmental certificate accepted on international platforms.
- In purchases, we prioritize the supply of large packaged products wherever possible, thus trying to prevent the formation of excess packaging waste.
- In our business, we pay attention to the A - C class electricity usage type in electrical device purchases.
- We pay attention to the environmentally friendly and economical products to be purchased, and to the quality standards of all purchased products.
- We undertake to prefer Class A electricity saving devices that use environmentally friendly gas in the air conditioning devices to be purchased for our business and to prefer environmentally sustainable products that are produced in a sustainable way/provided from sustainable sources.
